Vacancy Ravago Chemicals UK Operations Manager

**Full Time Permanent role
Competitive Package
Based in Barnsley, South Yorkshire**

Who we are

Ravago Chemicals UK are an established Chemical Distributor with expertise in providing chemical solutions to many different industry sectors such as surface coatings, adhesives, construction, personal care, household & industrial cleaning, etc. We are part of the global Ravago Group, and as a family company, we value the long-standing relationships we have with our suppliers, customers and colleagues.

Purpose of the role

Ravago Chemicals UK is looking for an Operations Manager with strong organizational and leadership skills. You will have the responsibility for the day-to-day management our new Everill Gate site. You will work closely with the Managing Director and management team, site colleagues and wider Ravago Group colleagues.

Requirements

- You have a mature, pro-active attitude
- You have a keen-eye for accuracy
- You are level-headed, detail-oriented and can manage fluctuating workloads
- You are communicative at multi-levels both internally and with customers / supply partners
- You have fluent spoken and written English language skills
- You have a good knowledge of the MS Office package
- You are a proficient and flexible in prioritising tasks, even at short-notice
- You have optimal time management skills
- You solve complex problems by reacting timely, adequately and accurately
- You have knowledge of import / export and HMRC Customs processes
- You have knowledge of INCOTERMS
- You have experience of the UK freight market
- You have experience of managing and leading people
- You have some valuable experience in a similar role

Principal responsibilities

As the site Operations Manager, you have the following responsibilities:-

Business Administration

- Provide management of the business administration, including Customer Service Representatives reporting to you
- Show leadership in prioritizing and delegating of workload and tasks
- Communicate clearly within the organization and to external customers and partners
- You identify areas for improvement and present these to the Management Team

Warehouse and Service Facility

- Provide management and leadership of the warehouse and service areas
- Ensure we are always operating under safe conditions and are fully site compliant
- Manage movement of all stock in / out
- Manage inventory levels – minimum / maximum stock levels, stock rotation, etc.
- Recommend re-order points for all product lines to the relevant Principal Managers
- Engage with Ravago Group and local freight partners to optimize service and cost

Other responsibilities

- Support the Management Team where applicable
- Involvement at Ravago Group level where applicable

Skills and Experience

A degree (or degree equivalent) is the minimum requirement

Previous experience in a site or function management position would be a distinct advantage

How to Apply
